Dulapul metalic ROBERT 1 Plus rezolva eficient aceasta problema. Designul sau bine gandit permite depozitarea comoda si organizata a obiectelor personale. Este ideal pentru ateliere, companii de productie, sali de sport, piscine si centre comerciale. Caracteristicile principale ale dulapului metalic pentru angajati: Constructie durabila din otel Patru dulapuri separate Fiecare compartiment poate fi incuiat cu cheie Orificii de ventilatie si suporturi pentru carduri de identitate pe usi Poate fi montat pe perete Poate fi adaugat la alte dulapuri Dulap spatios si compact pentru angajati Dulapul ingust pentru sanatate si siguranta se distinge prin flexibilitatea maxima. Dimensiunile sale compacte permit amplasarea dulapului in orice nisa si utilizarea optima a spatiului disponibil. Poate functiona ca piesa de mobilier independenta intr-o camera mica sau ca extensie a dulapului ROBERT cu 20 de compartimente sau a dulapului dublu ROBERT 2 Plus, oferind patru compartimente suplimentare. Modulele individuale pot fi combinate pentru a crea seturi care se potrivesc cel mai bine vestiarului si dimensiunii acestuia. Un dulap pentru sanatate si siguranta – patru spatii

separate Dulapul metalic pentru angajati este impartit in patru compartimente separate de aceeasi dimensiune. Fiecare compartiment poate contine obiecte personale, o geanta, carti sau un hanorac – totul aranjat convenabil si intotdeauna la indemana. Compartimentele sunt situate la inaltime diferite, astfel incat sa poata fi utilizate in siguranta de persoane de toate inaltimele. Dulap durabil si functional Dulapurile pentru sanatate si siguranta nu au, in general, o viata usoara, deoarece sunt amplasate in zone intens utilizate. De aceea, dulapul metalic ROBERT 1 Plus a fost proiectat pentru a face fata cat mai bine chiar si in medii dificile si solicitante, cum ar fi halele de productie sau atelierile. Constructie solida cu montare pe perete Dulapul gri pentru angajati este fabricat din otel solid cu grosimea de 0,6 mm, acoperit cu pulbere. Acest lucru face ca structura sa fie extrem de durabila si rezistenta la deteriorari mecanice. Chiar si dupa ani de utilizare, mobilierul ramane in stare foarte buna. Dulapul metalic poate fi fixat pe perete pentru a elimina riscul de cadere. Continutul dulapurilor sub control Toate dulapurile sunt echipate cu incuietori care protejeaza continutul impotriva accesului neautorizat si a furtului. Puteti depozita obiecte de valoare, cum ar fi telefonul, portofelul sau documentele personale, in dulap, fara teama de a le pierde. Fiecare dulap este dotat cu doua chei, ceea ce faciliteaza utilizarea de catre doua persoane si ofera siguranta in cazul pierderii uneia dintre chei. Solutii practice si bine gandite Orificiile de ventilatie asigura o circulatie eficienta a aerului. Acestea garanteaza o alimentare constanta cu aer, minimizeaza acumularea de mirosuri neplacute si umezeala si, astfel, au grija de starea obiectelor depozitate in interior. Un suport pentru carduri pe fiecare dulap faciliteaza gasirea dulapului potrivit fara a pierde timp si fara a face greseli.
