Caracteristicile principale: Constructie durabila din otel cu grosimea de 1,1 mm O impartire inteligenta in doua zone de depozitare 7 sertare incapatoare cu glisiere silentioase Panouri perforate pentru scule Sistem de inchidere in 3 puncte Culoare gri Dulap metalic de atelier DAREK – ordine in atelierul dvs. O buna organizare a spatiului este esentiala pentru o munca sigura si eficienta – atat in garaj, cat si in atelierele profesionale. Dulapul de atelier DAREK va va ajuta sa va organizati sculele si sa pastrati ordinea, oferind un spatiu de depozitare comod si bine gandit. Interiorul sau functional si culoarea gri universal accentueaza estetica incaperii si contribuie la confortul muncii de zi cu zi. Constructie din otel pentru conditii dificile Dulapul de atelier DAREK este fabricat din otel de inalta calitate, cu o grosime de 1,1 mm. Toate elementele dulapului sunt acoperite cu un strat protector suplimentar de vopsea pulbere, ceea ce ii confera o durabilitate remarcabila si rezistenta la deteriorari mecanice si coroziune. Acest lucru este extrem de important in spatii de tip garaj sau atelier, unde conditiile pot fi dificile, cum ar fi temperaturile scazute si umiditatea ridicata. Chiar si dupa ani de utilizare, dulapul metalic DAREK utilizat in conditii dificile, arata ca nou. Sertare silentioase si incapatoare Interiorul dulapului DAREK este gandit pana la cel mai mic detaliu. Impartirea in doua zone faciliteaza aranjarea eficienta a sculelor si elimina necesitatea cautarii

lor prin tot atelierul. Dulapul este prevazut cu 7 sertare incapatoare, montate pe glisiera silentioase. Trei dintre ele au o inaltime de 9 cm, iar celelalte patru de 11 cm. Aceasta diversitate permite depozitarea sculelor de diferite dimensiuni si mentinerea ordinii in incapere. Panouri perforate pentru scule Un element distinctiv al dulapului DAREK sunt panourile perforate montate pe peretele din spate si pe usile interioare. Orificiile speciale din panouri ofera posibilitatea fixarii manerelor si carligelor, permitand agatarea sculelor. Astfel, sculele folosite cel mai frecvent sunt intotdeauna la indemana, exact atunci cand aveti nevoie de ele. Interiorul dulapului sub cheie Sculele de atelier nu trebuie lasate in locuri accesibile tuturor, pentru a nu ajunga in mainile unor persoane neautorizate. Lasarea sculelor in astfel de locuri ar putea duce la situatii periculoase. De aceea, dulapul metalic DAREK este echipat cu un sistem de inchidere in 3 puncte. Doua seturi de chei va ofera un control deplin asupra persoanelor care au acces la interiorul dulapului. Dulapul DAREK nu include echipamente suplimentare, cum ar fi carligele si manerele pentru panoul perforat. Accesoriile suplimentare sunt disponibile pe site-ul Jan Nowak.
