Caracteristici principale: Constructie robusta din otel 2 compartimente cu incuietoare cu cheie Raft superior, carlige si bara pentru umerase Banca confortabila si acoperis inclinat Orificii de ventilatie si suporturi pentru etichete pe usi Culoare: gri Dulap vestiar fiabil cu banca si acoperis – KACPER II PRO Dulapul metalic KACPER II PRO este o solutie functionala si estetica pentru orice vestiar. Dimensiunile optime, interiorul bine gandit pentru depozitarea hainelor si obiectelor personale, precum si banca integrata, il fac ideal pentru organizarea spatiilor sociale si mentinerea ordinii. Solutiile implementate sporesc confortul si permit schimbarea rapida si fara dificultati. Dulapul cu banca si acoperis inclinat KACPER II PRO este perfect pentru vestiarele de la locul de munca, scoli, sali de sport sau piscine. Un dulap durabil pentru ani de utilizare Dulapul gri KACPER II PRO este realizat din tabla de otel de inalta calitate, cu grosimea de 0,6 mm, vopsita in camp electrostatic. Aceasta constructie metalica este rezistenta la deteriorari mecanice si coroziune, fiind totodata usor de curatat si de mentinut igienic. Culoarea gri neutra se potriveste in orice interior, iar vopseaua durabila asigura un aspect estetic pe termen lung. Practic si securizat Dulapul este format din doua compartimente independente, fiecare echipat cu o incuietoare solida. Astfel, doua persoane pot depozita in siguranta obiecte personale si de valoare. Interiorul fiecarui

compartiment KACPER II PRO este extrem de practic: un raft superior incapator, o nisa adanca cu bara pentru umerase si carlige suplimentare permit organizarea comoda a hainelor, incaltamintei, gentilor, rucsacurilor si obiectelor mici. Banca pentru confort suplimentar Un avantaj important al dulapului KACPER II PRO este banca integrata, care permite schimbarea hainelor intr-o pozitie confortabila, asezat, sau pur si simplu o pauza. Nu exista riscul ca dulapul sa se rastoarne, deoarece banca este fixata pe un cadru solid, cu picioare din otel de 1,1 mm grosime. Acoperisul inclinat adauga un plus estetic, faciliteaza curatarea partii superioare si previne acumularea de praf. De asemenea, impiedica depozitarea obiectelor deasupra dulapului, crescand siguranta – caderea accidentala a acestora ar putea provoca accidente. Cu modelul KACPER II PRO, acest risc este eliminat. Ventilatie eficienta in vestiar Dulapul social ofera functii utile care usureaza viata utilizatorilor. Orificiile de ventilatie din usi asigura o circulatie corespunzatoare a aerului si elimina riscul aparitiei mirosurilor neplacute. Se pot depozita pantofi fara a afecta prospektimea hainelor din interior. Chiar si dupa multe ore, imbracamintea ramane curata si gata de purtat. Suporturile pentru etichete de pe usi faciliteaza organizarea vestiarului.
