uniform adauga eleganta acestui dulap de scule BRUNO. Solutia profesionala pentru nevoile D-voastra Un mare avantaj al acestui dulap de scule BRUNO este faptul ca rafturile nu sunt fixate pe structura acestuia. Raftul are perforatii speciale care, impreuna cu carlige puternice, va vor permite sa schimbati inaltimea nivelelor la fiecare 25 mm. Ceea ce inseamna ca interiorul dulapului de scule BRUNO se va adapta la obiectele depozitate, si nu invers. Capacitatea de incarcare a unui singur raft este de pana la 80 kg. Mai mult decat un dulap standard Acest dulap de scule BRUNO seamana in mare masura cu mobilierul metalic standard pe care il puteti vedea in birouri. Diferenta semnificativa este reprezentata de un panou perforat plasat in trei locuri. Tot ce trebuie sa faceti este sa furnizati carligele si manerele potrivite (disponibile pe site-ul Jan Nowak) si veti crea un loc foarte comod pentru a depozita surubelnite sau chei. Important este ca accesul la scule va fi extrem de usor si rapid. Dulap de scule cu incuietoare Cand vine vorba de mobilier pentru atelier, nu doar buna organizare este importanta, ci si siguranta. Mai ales daca in interior se afla obiecte extrem de valoroase sau periculoase. Usa acestui dulap de scule BRUNO poate fi incuiata. Cele doua chei incluse in set va vor permite sa decideti singuri cui doriti sa acordati acces la dulapul de scule. Interiorul este protejat de o incuietoare solida prevazuta in trei puncte.
