Dulapul pentru imbracaminte de protectie BARTEK organizeaza spatiul si ofera fiecarui angajat un colt propriu, inchis. Este un echipament verificat pentru unitati industriale, depozite, hale de productie si spatii sociale. Caracteristicile principale ale dulapului metalic pentru imbracaminte: Structura rezistenta din otel de 0,6 mm vopsit cu pulbere 10 compartimente cu o capacitate de incarcare de pana la 30 kg fiecare Compartimente incuiabile – conformitate cu RGPD Orificii de ventilatie si spatiu pentru placuta cu nume pe usi Bara pentru umerase montata in fiecare compartiment Certificat PZH care confirma siguranta pentru sanatate si mediu Posibilitate de montare pe perete pentru o stabilitate mai mare Dulap pentru angajati – spatiu optimizat Zece compartimente intr-un singur corp reprezinta o modalitate de utilizare inteligenta a spatiului disponibil, fara a aglomera si bloca vestiarul. Dulapul metalic BARTEK se potriveste la fel de bine atat in spatii inguste, cat si in incaperi spatioase. O astfel de dispunere permite angajatilor sa isi depoziteze confortabil lucrurile. Compartimente incapatoare cu bara Fiecare compartiment are montata o bara pentru umerase, datorita careia hainele atarna liber, nu se sifoneaza si nu se murdaresc. In interior incap fara probleme un set complet de haine de lucru, incaltaminte, geanta si accesorii mici. Pentru fiecare nisa se poate achizitiona o raft si se poate imparti spatiul in functie de propriile nevoi. Orificiile speciale din peretele din spate ofera, de asemenea, posibilitatea de a monta un set USB si de a incarca dispozitivele direct in dulap. Orificii de ventilatie – vestiar fara umezeala Usile tuturor dulapurilor sunt prevazute cu orificii de ventilatie, care asigura o circulatie libera a aerului si reduc la minimum acumularea de mirosuri neplacute si umezeala. Spatiile pentru placute cu nume de pe usi faciliteaza gasirea unui anumit dulap si deplasarea in vestiar. Dulap social – siguranta si durabilitate Modelul BARTEK a fost conceput pentru o utilizare intensa intr-un mediu solicitant. Corpul metalic si finisajul ingrijit garanteaza ca structura nu isi pierde nici functionalitatea, nici aspectul de-a lungul anilor. Posibilitatea de fixare pe perete stabilizeaza suplimentar mobilierul si exclude riscul de rasturnare chiar si la incarcare maxima. Constructie robusta din otel, certificata PZH Otelul cu grosimea de 0,6 mm acoperit cu vopsea pulbere este rezistent la zgarieturi si coroziune, iar canaturile usilor intarite protejeaza balamalele impotriva deformarii la deschiderea zilnica. Certificatul PZH confirma conformitatea cu normele de igiena si constituie un argument formal la achizitiile pentru institutii publice si companii supuse auditurilor externe de sanatate si siguranta la locul de munca. Incuietoare cu cheie – protectia datelor si linistea angajatului Fiecare compartiment se inchide cu o cheie separata, astfel incat accesul la continut este rezervat exclusiv utilizatorului sau. Dulapul social indeplineste cerintele GDPR si este potrivit pentru depozitarea obiectelor care fac obiectul protectiei datelor cu caracter personal. Daca este necesar, exista posibilitatea montarii unei incuietori cu lacat din oferta noastra si adaptarii la procedurile interne ale companiei.
