Panou perforat cu magneti – atelierul sub control Intr-un atelier sau la un banc de lucru, accesul rapid la scule si piese este esential. O placa perforata cu magneti organizeaza accesoriile necesare intr-un singur loc – intotdeauna vizibile si la indemana. Este o solutie practica pentru un atelier acasa, garaj sau studio profesional, ajutand la economisirea timpului si la mentinerea ordinii fara dulapuri sau containere inutile. Caracteristici principale ale panoului perforat pentru scule: Design independent Otel carbon durabil acoperit cu pulbere 8 magneti cu o capacitate de incarcare de 1,5 kg fiecare Picioare de nivelare stabile – reglare de 10 mm Capacitate totala de incarcare 30 kg Perforatie universala Potrivit pentru dulapuri, birouri si bancuri de lucru Jan Nowak Panou pentru scule independent – organizare fara gaurire Datorita designului sau independent, panoul nu necesita montare pe perete sau instalare. Pur si simplu asezati-l pe un banc de lucru, masa sau in interiorul unui dulap Jan Nowak. Picioarele reglabile asigura stabilitate chiar si pe suprafete inegale, iar designul usor va permite sa mutati cu usurinta

organizatorul acolo unde este nevoie. Perforatie compatibila cu accesoriile pentru panouri perforate Perforatia universala permite instalarea de accesorii suplimentare pentru panouri perforate – carlige, suporturi, recipiente. Acest lucru va permite sa personalizati dispunerea sculelor si sa extindeti cu elemente suplimentare. Solutia modulara ofera o reorganizare rapida a panoului pe masura ce nevoile atelierului dvs. se schimba. Magneti in loc de carlige Cei opt magneti de neodim inclusi in set sunt o modalitate de a organiza scule mici, suruburi, biti sau chei fara a utiliza carlige traditionale. Fiecare magnet are o capacitate de incarcare de pana la 1,5 kg, astfel incat poate sustine cu usurinta accesorii metalice. Magnetii pot fi asezati liber pe suprafata perforata si adaptati stilului dvs. de lucru. Fiabilitatea si siguranta panoului pentru scule Panoul este fabricat din otel carbon cu grosimea de 0,6 mm, acoperit cu pulbere, si este rezistent la deteriorari mecanice si coroziune in timpul utilizarii zilnice in conditii dificile. Capacitatea totala de incarcare de 30 kg asigura ca organizatorul de atelier poate suporta chiar si unelte mai grele fara a se deforma, inclina sau cadea. Acest lucru sporeste siguranta la locul de munca si protejeaza blatul de lucru de zgarieturi.
