Raftul SAM permite organizarea inteligenta a spatiului, oferind fiecarui instrument si echipament un loc bine definit. Astfel, creste eficienta activitatii si se mentine ordinea. Lipsa dezordinii duce la o productivitate mai mare si reduce riscul de accidente. Datorita acestor avantaje, raftul metalic SAM este ideal pentru garaje, ateliere, spatii de productie si depozite. Constructie durabila Raftul SAM este realizat din otel de inalta calitate, vopsit in camp electrostatic. Grosimea materialului a fost aleasa atent: cadrul este fabricat din otel ranforsat de 1,1 mm, iar rafturile din tabla de 0,8 mm. Vopseaua pulbere asigura durabilitate sporita si protectie impotriva uzurii mecanice si coroziunii. Raftul isi pastreaza astfel aspectul impecabil timp de multi ani. Culoarea alba, neutra, nu se estompeaza si creeaza senzatia de spatiu mai larg. Rafturi incapatoare si reglabile Raftul SAM este dotat cu 5 rafturi spatiosase si rezistente. Inaltimea acestora poate fi ajustata la fiecare 38 mm, facilitand depozitarea obiectelor de dimensiuni diferite. Fiecare raft suporta o greutate de pana la 85 kg, fiind ideal pentru unelte si echipamente grele. Cadru robust adaptat nevoilor tale Cadrul stabil asigura o pozitie sigura si o rezistenta ridicata. Constructia ranforsata din otel de 1,1 mm permite depozitarea obiectelor grele fara probleme. Partea interioara a cadrului este prevazuta cu perforatii pentru montarea si ajustarea usoara a pozitiei rafturilor. Montaj rapid si fara unelte Fiecare element al raftului SAM este conceput cu atentie la detalii. Montajul este

extrem de simplu si intuitiv – fara suruburi. Nu sunt necesare unelte suplimentare: toate accesoriile necesare (picioruse, capace, elemente de prindere) sunt incluse in pachet, alaturi de un manual clar. Raftul poate fi asamblat usor, in doar cateva minute.
