pe roti – sedere dinamica si confort deplin la locul de munca Orele lungi petrecute stand intr-o pozitie incomoda duc la suprasolicitarea picioarelor, dureri de spate si scaderea preciziei in timpul indeplinirii sarcinilor. Din ce in ce mai des, angajatorii cauta solutii moderne care sa imbunatateasca ergonomia locului de munca si sa mentina un nivel ridicat de productivitate al angajatilor. Scaunul de atelier pe roti este o optiune excelenta, care combina mobilitatea cu o postura activa si sanatoasa la birou. Se potriveste perfect in ateliere, laboratoare, cabinete medicale si birouri. Caracteristicile principale ale scaunului rotativ pe roti: Scaun care permite balansarea Rotire la 360° care favorizeaza o pozitie activa Reglarea inaltimii scaunului (582-795 mm) Tapiterie din piele ecologica, usor de curatat Material rezistent la uzura (50 000 de cicluri) Suport confortabil pentru picioare Baza stabila cu cinci brate pe roti Dimensiuni compacte si utilizare universala Forma simpla si functionala a scaunului de lucru se potriveste perfect in orice incapere – de la atelierul auto, la laboratorul steril si pana la biroul modern. Dimensiunile reduse ale scaunului se potrivesc, de asemenea, birourilor de acasa si atelierelor domestice. Dimensiunile optime ale sezutului (380 mm) asigura confortul fara a ocupa spatiu excesiv. Scaun pe roti – miscare activa fara a te ridica Mecanismul de balansare cu o inclinare de 17° incurajeaza miscarile mici si reduce senzatia de stagnare in timpul lucrului indelungat. Rotirea la 360° permite accesul liber la unelte si materiale fara a fi nevoie sa va ridicati, ceea ce accelereaza indeplinirea sarcinilor si reduce oboseala. Rotile permit deplasarea lina intre statii – este suficient sa va impingeti usor de la sol. Echilibrarea angajeaza muschii profunzi si ajuta la mentinerea unei posturi active a corpului. Reglarea inaltimii si suportul ergonomic pentru picioare Intervalul de reglare a inaltimii de la 582 la 795 mm ofera o adaptare precisa a scaunului rotativ la inaltimea utilizatorului si la nivelul blatului. Reglarea se face lin, iar scaunul se adapteaza in cateva secunde la pozitia curenta. Scaunul este potrivit pentru birourile clasice, blaturile de lucru si statiile ergonomice sit-stand. Suportul pentru picioare descarca greutatea de pe gambe si genunchi, sporind confortul in timpul sesiunilor mai lungi si prevenind umflarea picioarelor. Siguranta maxima pentru scaunul de laborator Baza larga cu cinci brate garanteaza stabilitatea in timpul balansarii si protejeaza impotriva caderilor. Scaunul de atelier rezista la utilizarea intensa, iar rotile asigura mobilitate si deplasare rapida in incapere fara a zgaria podeaua. Certificarea BIFMA confirma rezistenta ridicata si fiabilitatea constructiei. Inelul din otel faciliteaza reglarea rapida chiar si cu manusi de lucru groase. Materiale durabile si calitate confirmata Scaunul este acoperit cu piele ecologica rezistenta la uzura (50.000 de cicluri) si usor de intretinut – este suficient sa il stergeti cu o carpa umeda pentru a indeparta petele. Umplutura din spuma turnata ofera un sprijin stabil si isi pastreaza forma pentru o lunga perioada de timp. Spuma ignifuga respecta standardul CA117, sporind siguranta in spatiile comerciale si publice.
